

Come and enjoy a visit to the historic City of York

The most haunted city in Europe is home to a vast array of wonderful landmarks such as York Minster, Jorvik Viking Centre and Clifford's Tower.

The University of York and its grounds are just 2 miles south east of York city centre and offer Bed and Breakfast accommodation for visitors. Our year round facilities at Wentworth College and Franklin House offer a comfortable stay in an ensuite bedroom, with tea and coffee making facilities and full English or Continental breakfast.

In addition to our year round amenities, we also provide standard bed and breakfast accommodation in James College during the summer months, which offers visitors an inexpensive stay – ideal for those on a budget.

If you are planning a short break in York with friends or family during the summer months, why not try our self catering accommodation at Halifax College or Alcuin College? With between 5-12 bedroom flats and houses available on short stay lets, these options are sure to be within your budget.
