

New Frontiers in Anion Spectroscopy,

Half-Day Symposium, March 8th, 2017

University of York

Department of Chemistry (A101)

Program

Session 1

13:00-13:05 Welcome and Introduction Dr Caroline Dessent

Session Chair: Prof Andrew Ellis, University of Leicester

13:05-14:05 Prof Manfred M Kappes (Karlsruhe Institute of Technology, Germany)
"Time-resolved photoelectron spectroscopy of molecular multianions"

14:05-14:45 Dr Jimena Gorfinkel (Open University, UK)
"Temporary Anion States of Biologically Relevant Molecules"

14:45-15:20 Tea and Coffee Break (A102)

Session 2

Session Chair: Dr Julia Lehman, University of Leeds

15:20-16:20 Prof Steen Brøndsted Nielsen (Aarhus University, Denmark)
"Accessing the Intrinsic Nature of Electronic Transitions from Gas-Phase Ion Spectroscopy"

16:20-17:00 Prof Jan R R Verlet (Durham University, UK)
"Photoelectron Spectroscopy Three Ways: Probing Ultrafast Dynamics of Anions"

17:00 Wine Reception (A102)
