

### Wednesday 5 September

17.00-19.00 **Registration - St. Giles Hotel**

20.00 **Dinner**

### Thursday 6 September

Chair: Andrew Jones (University of York)

9.30-10.30 Chris Auld, Cam Donaldson, John Gill, Hart Krentz and Myron Weber  
(University of Calgary)

*Health, life expectancy and labor market outcomes: The case of HIV*

Discussant: Espen Bratberg (University of Bergen)

10.30-11.30 Barton Hamilton (Washington University in St. Louis)

*Accounting for treatment response heterogeneity when analyzing AIDS  
clinical trials*

Discussant: Paul Contoyannis (University of York)

11.30-11.50 **Coffee**

### Doctoral & young researchers session

11.50-12.40 David Vanness and Ray Kim (Mayo Clinic)

*Empirical modelling, simulation and uncertainty. Analysis using  
Markov Chain Monte Carlo: Ganciclovir prophylaxis in Liver  
transplantation*

Discussant: John Forbes (University of Edinburgh)

12.40-13.30 Roberto Leon-Gonzalez (University of York)

*Mental health and wages in Britain: An empirical study*

Discussant: Jan Erik Askildsen (University of Bergen)

13.30-14.30 **Lunch**

Chair: Frank Windmeijer (Institute for Fiscal Studies)

14.30-15.30 Angel López Nicolás (Pompeu Fabra University)

*How important are tobacco prices in the propensity to start and quit smoking? An analysis of smoking histories from the Spanish National Health Survey*

Discussant: David Madden (University College Dublin)

15.30-16.30 Badi Baltagi and James Griffin (Texas A&M University)

*Rational addiction to alcohol: Panel data analysis of liquor consumption*

Discussant: Paul Grootendorst (McMaster University)

16.30-17.00 **Coffee**

17.00-18.00 Jérôme Adda and Valérie Lechene (University College London & IFS, Oxford University)

*Rational addiction and endogenous mortality: Does heterogeneity in life expectancy explain differences in smoking behaviour?*

Discussant: Fabrice Etilé (INRA-CORELA, Paris)

20.00 **Dinner**

## **Friday 7 September**

Chair: John Cairns (University of Aberdeen)

9.30-10.30 Martin Schellhorn (University of Bern)

*A comparison of alternative methods to model endogeneity in count models. An application to the demand for health care and health insurance*

Discussant: Frank Windmeijer (IFS)

10.30-11.30 Myoung-jae Lee (Sungkyunkwan University)

*Selection correction and sensitivity analysis for ordered treatment effect on count response*

Discussant: Edward Norton (University of North Carolina at Chapel Hill)

11.30-11.50 **Coffee**

### **Doctoral & young researchers session**

11.50-12.40 Brendan McElroy (University of Edinburgh)

*Factors affecting the demand for GMS prescribing resources in Ireland: OLS, robust and quantile estimation compared*

Discussant: Nigel Rice (University of York)

12.40-13.30 Tor Helge Holmås (University of Bergen)

*Keeping the nurses at work: A duration analysis*

Discussant: Unto Hakkinen (STAKES, Helsinki)

13.30-14.30 **Lunch**

Chair: Owen O'Donnell (University of Kent)

14.30-15.30 Mark Dusheiko and Hugh Gravelle (University of York)

*Measuring income related inequality in health within general practices*

Discussant: Alissa Goodman (IFS)

15.30-16.30 Matthew Sutton (University of Glasgow)

*Socio-economic inequities in health care use in Scotland: The importance of morbidity and need measurement*

Discussant: Xander Koolman (Erasmus University)

16.30-17.00 **Coffee**

17.00-18.00 Gerard van den Berg, Maarten Lindeboom and France Portrait (Free University Amsterdam and Tinbergen Institute)

*Effect of death of the spouse on health status: A multi-state multi-spell duration model*

Discussant: Chris Bojke (University of York)

20.00 **Dinner**

### **Saturday 8 September**

20.00 **Dinner**
