

BORN IN BRADFORD CENTRE FOR SOCIAL CHANGE AT THE UNIVERSITY OF YORK LAUNCH EVENT

December 3rd 12.15 - 2.15pm. Law and Sociology Building, East campus

The University of York is a key partner in the high-profile, world-leading research programme, [Born in Bradford \(BiB\)](#). To deepen this partnership, the Healthy Livelihoods team based in Health Sciences and The York Policy Engine are collaborating with BiB in the development of the Born in Bradford Centre for Social Change at the University of York. The Centre will be focused upon accelerating and amplifying the health, social, and economic research and impact generated through the University of York-Born in Bradford partnership and fostering new collaborations.

The Centre aims to drive meaningful social change by bridging research and policy in a sustained, collaborative way, including through new internal funding opportunities for the university community.

Room capacity is limited, so please confirm your attendance to type@york.ac.uk asap and let us know if you have any dietary requirements.
