

APPLICATION FOR POSTGRADUATE STUDY

Equal Opportunities Monitoring Form

The University of York values the diversity of its members and is committed to the creation of a positive environment which is fair, welcoming and inclusive and where everyone is treated with dignity and respect. We welcome applicants with varied experiences and different backgrounds, and are committed to ensure that no student with potential is deterred from applying.

The University is committed to a policy of equal opportunities, available for downloading at <http://www.york.ac.uk/admin/eo/policies/EqualityDiversityPolicyStudents.htm>. To enable the University to monitor the effectiveness of this policy, applicants are asked to complete a series of Equal Opportunities Monitoring questions. Information provided is used solely for the purpose of monitoring application and admission rates and forms no part of the selection procedure (i.e. this information is not forwarded to assessors).

Educational institutions have a duty under the Equality Act (2010) to advance equality of opportunity between people from different groups. Diversity awareness training is offered to all staff.

The UK Commission for Racial Equality also requires the University to collect information on the ethnic origin of all applicants. Please select the category that you feel best describes your ethnic origin.

All information will be handled in the strictest confidence and in accordance with the Data Protection Act.

Applicants with additional support needs

The University has an explicit policy of providing support for students with disabilities or long term health conditions and believes that these students should have access to the full range of academic, cultural and social activities the University offers. Disability awareness training is offered to all staff. Therefore, the University will take all reasonable steps to meet both the general need for access and the specific needs of individuals with additional support needs.

Students with disabilities or long term health conditions, as all other students, are accepted by the University on the basis of academic attainment and potential to benefit from the programme to which they have applied.

Applicants are encouraged to declare their disability when they apply but this is not taken into account by the staff assessing their application. If an offer is progressed information relating to a candidate's disability or long term health condition will subsequently be shared with assessors to allow them to engage in further discussion with the applicant and identify appropriate adjustments where applicable. Applicants who choose not to disclose their disability or long term health condition at the point of application will be provided with other opportunities to provide such information later in the process. Any disability disclosure will be dealt with confidentiality and sensitively.

Certain disabilities may preclude entry to certain programmes (e.g. those in subjects allied to medicine, and those leading to qualified teacher status). Where the adjustments needed to provide the required support are not considered reasonable, the University will undertake to support the applicant in considering an alternative programme where appropriate.

The information you provide is also used by the Higher Education Statistics Agency to monitor rates of participation in Higher Education by particular groups of people, which is a statutory requirement.

If you have a disability, additional needs (including dyslexia or another specific learning difficulty) or a medical condition, please select the most appropriate option from the list. If you do not have a disability, additional needs, or a medical condition, please select 'No disability'.

All information will be handled in the strictest confidence and in accordance with the General Data Protection Regulation (GDPR).
